What are the remaining cattle commissioners going to do about it? Are they going to wait to be booted out?

The announcement that there is an alien in the House of Representatives produces no uneasiness in the mind of the member from Barre City.

It's sweet music for the people of Vermont to hear that their representatives are "getting down to work," as one correspondent has put it.

The correct picture of Father Vermont just now is in the act of waving the big stick over the Burlington Rendering company, an adjunct of the Swift company.

The swap of Edward R. Beavitt from referee in bankruptcy to be custodian of the state's bank account of \$328,000 is like passing from the ridiculous to the sublime.

Not a great while ago the North was ringing, "We'll hang Jeff Davis to a sour apple tree." Now witness the grief of the North as well as the South over the death of the "widow of the Confederacy," the widow of the president of the rebellious states.

BEAUTIFUL SHOES

\$3.00—\$3.50—\$4.00.

You are invited to inspect our display of the new Autumn Shoe Fashions. Particularly do we direct attention to the new "Dorothy Dodd" Shoes. Not only will they appeal to your artistic sense, but the very stamp on the sole is our double assurance that the quality is honest through and through. And think what this means when, because of the high cost of leather, so many shoes have been deliberately cheapened to deceive you into the belief that you are getting former values at old prices!

Against this deception the very prestige of the "Dorothy Dodd" trademark is your protection. Its makers cannot afford to lower the standard by which it has achieved the most phenomenal shoe success ever known. If you would have prettier and more stylish feet, let us fit you with a pair of these new "Dorothy Dodd" Shoes. They come in all styles and leathers, and for all services.

DIMES

Some of our depositors are saving from \$5 to \$6 each month by taking one of our little pocket banks and dropping into it every dime they get in change.

\$5 deposited each month would amount to \$60.02 at the end of a year—and you would never miss the change.

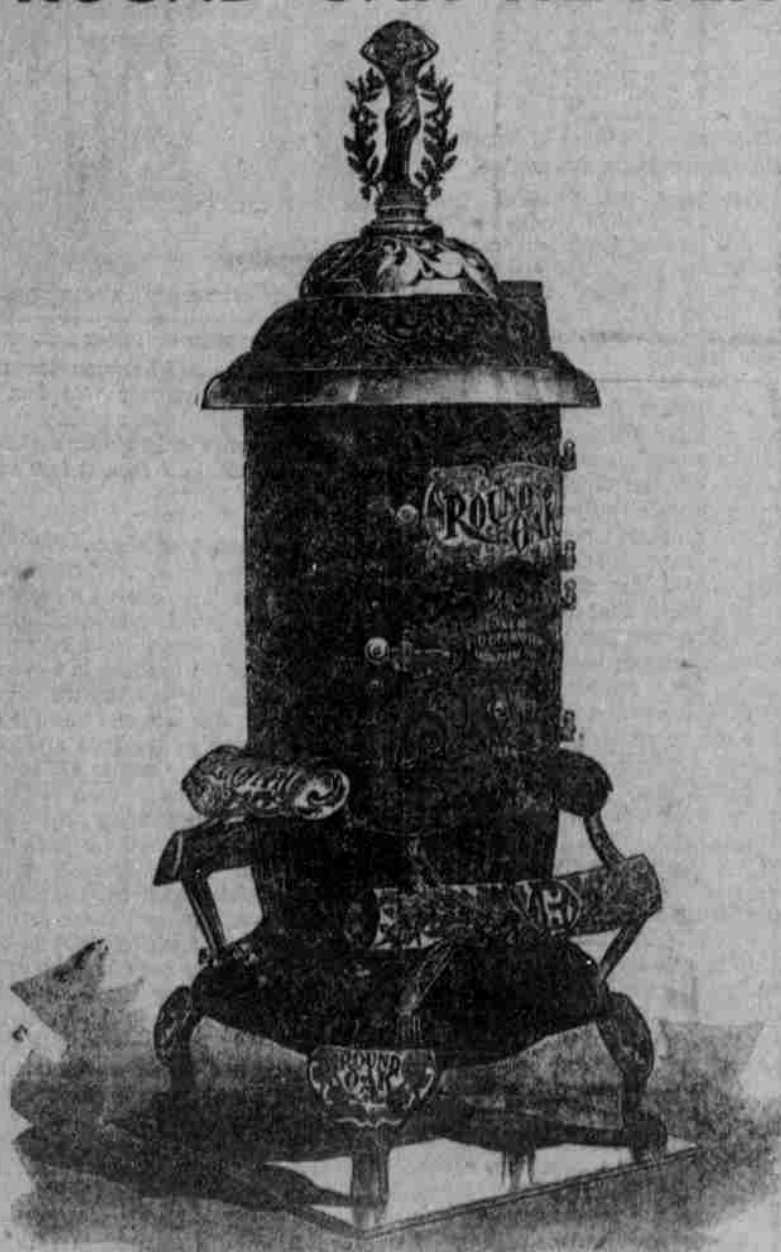

This is a good plan. It will help you save. Will you try it? Ask for one of the little banks.

We pay 3 1-2 per cent interest, compounded semi-annually.

following material reasons for our neighbor to give thanks: "Never in the history of this country have we had greater reason to give thanks than at the present time. Canada is a nation blessed with great resources, a nation whose people are at peace and who have prospects perhaps brighter than any people who inhabit the globe. Altogether this is a specially favored land and if at any time thanksgiving befits a nation, it is here and now."

STATE TAX COMMISSIONER.

Those who are trying to oust State Commissioner of Taxes J. E. Cushman of Burlington are forced to admit that he has made an excellent official and that he has built up the office in a substantial way, built it up for the benefit of the state of Vermont. Mr. Cushman has been a valuable man in charge of

CAN YOU CAN?

Now is the time to think of canning and preserving. Before you go into canning and preserving, however, see that you are sure of your recipe and method. Money is easily wasted by women who do not know the proper ways of canning and preserving. There is no excuse for this, because women who have years of experience in canning and preserving will explain the best methods and give the best recipes to readers of the household department of the Boston Daily Globe.

important work. Yet there is an effort to now turn him out of office. The only basis for the attempt is the assertion that he has held the office long enough and that it is time to pass the office around. It's this passing around of offices that has worked mischief in Vermont's administration in the past. When looking for efficiency of service (which we must be looking for) it is not sufficient to turn an official out because he has served three, two or one terms; there should be something more reasonable as an excuse. When no better excuse for a rival candidacy can be presented than that, Governor Proctor would hardly be justified in turning out the present capable commissioner.

SOCIETY SAFEGUARDED.

The verdict of not guilty by reason of insanity, which was returned in the case of Raymond Mullen, who was charged with murder, was the only conclusion that could be reached in view of the evidence presented; it was the equitable decision for many things tended to show the mental irresponsibility of the respondent. It was tacitly admitted by the prosecution, as it was advanced by the defense, that the young man in custody was in a diseased mental and moral state at the time of the commission of the crime alleged. Consequently there was no effort on the part of the prosecution to combat the insanity theory of the defense; and on the other hand, there was no effort by the defense to deny the allegation of murder. In fact, had it been possible under the statutes to accept a plea of not guilty by reason of insanity, that action would probably have been taken at the start and the cost of a trial eliminated. But in murder cases it becomes necessary to conduct a trial. In this case the trial was little more than the test of the sanity of the respondent, but in view of the admissions of both sides it was all the procedure that was required. The verdict returned will assure protection to society from an admittedly dangerous person. Would that that protection had been accorded prior to March 14!
